

FY2017-2018
STATE and FEDERAL
PERFORMANCE MEASURES

This tool displays goal-oriented state and federal Performance Measures (PM) for each Area Agency on Aging's (AAA) Planning and Service Areas (PSA). These PMs were established by the California Department of Aging (CDA) Health Insurance Counseling and Advocacy Program (HICAP) using the Administration for Community Living's (ACL) approach for calculating the following Target Penetration Counts (TPC) needed by each county for improvements.

AAAs should demonstrate progress toward meeting the Minimum Target Penetration Counts (MIN-TPC) or determine the HICAP Planning and Service Area's (PSA) capacity for reaching the Improvement TPCs (IMP-TPC). For current and future planning, CDA requires each AAA ensure that HICAP service units and related federal Annual Resource Report data are documented and verified complete/ finalized in CDA's Statewide HICAP Automated Reporting Program (SHARP) system per the existing contractual reporting requirements.

KEY: FI = Finalized Intakes calculated for this Fiscal Year (FY) using the last FY against the past FY

PM = Performance Measure

TPC = Target Penetration Counts of Client Contacts equivalent to National percent ratings for statewide ranking

MIN-TPC = Minimum Target Penetration Counts for Client Contacts equivalent to point of entry percent needed to maintain Target Rate

IMP-TPC = Improvement Target Penetration Counts for Client Contacts equivalent to point of entry percent needed to enter next Target Rate

1) Hard to Reach:

1) Rural is defined by Centers for Disease Control National Center (CDC) and Centers for Medicare & Medicaid Services (CMS) as statistical geographic areas delineated by the county classifications for Micropolitan (MIC) and Outside (OUT); blank values indicate counties without this classification.
