Area Plan Overview

Introduction The California Department of Aging (CDA) and the statewide network of 33 Area Agencies on Aging (AAA) share responsibility for planning for California’s present and future aging and long-term care needs. The AAAs’ Area Plans (AP) and the California State Plan on Aging together establish the framework for how the AAAs and the CDA will deliver services to California’s diverse population.

Purpose The AP describes the AAA’s future activities over the coming four years. In it, the AAA describes its efforts to identify the needs of older adults, adults with disabilities, and their caregivers. The AAA then describes its plan for developing coordinated and accessible home- and community-based systems of care to address community needs and develop services for older adults, adults with disabilities, and their caregivers.

Regulation In accordance with the Older Americans Act (OAA) 2006 Sections 306(a) and 307(a)(1) “Area Plans shall be submitted in a uniform format specified by the State Agency.” The forms and templates contained in this Guidance constitute the required Area Plan format.

In the event of an amendment to the OAA during the FY 2016-2020 Area Plan cycle, CDA will issue a Program Memo (PM) describing the amendments and provide relevant guidance and necessary form and template changes pertaining to the Area Plan.

Area Plan Content The AP comprises the following components:

- Area Plan Required Components Checklist
- Transmittal Letter
- Area Plan Sections 1 – 22, as delineated in Part II

Section 9 Instructions: Area Plan Narrative Goals and Objectives

Purpose This section provides information about AAA services and activities developed from the needs assessment findings and identification of priorities.

Instructions The AAA shall develop goals and objectives from the needs assessment and identification of priorities. Goals are broad concepts that reflect the AAA's mission. Objectives are specific, measurable statements of action intended to meet the AAA's goals.

Program Instructions List goals and objectives in the format provided in Part II: Format & Templates, Section 9.

Title IIID:

AAAs must submit written objectives for Title IIID program. The objective should clearly provide the name and describe the program being provided and explain how it meets the criteria for evidence-based programs. There are two accepted methods to determine if a program meets the new Title IIID evidence-based criteria.

1. Document how the program meets each of the five (5) bullets in the new evidence-based definition. The program:
 - Has been demonstrated through evaluation that the program is effective for improving the health and wellbeing or reducing the disability and/or injury among older adults.
 - Has been proven effective with the older adult population, having used an Experimental or Quasi-Experimental Design.
 - Has had research and evaluation results published in a peer-reviewed journal.
 - Has been implemented at the community level (with fidelity to the published research) and shown to be effective outside a research setting.
 - Includes program manuals, guides, and/or handouts that are available to the public.
2. The program is considered to be evidence-based by any operating division of the U.S. Department of Health and Human Services (DHHS). Each operating division offers lists of "evidence-based" programs on their websites.

Section 9 Instructions: Area Plan Narrative Goals and Objectives

Program Instructions
continued

Other considerations:

- Medication Management is no longer a required separate service category. However, Medication Management is an allowable activity if it meets the new criteria for evidence-based programs.
- Report Medication Management service units as part of Title IIID Disease
- Nutrition Education and Nutrition Counseling are no longer allowable Title IIID activities.

Title IIIB/VIIA Long-Term Care (LTC) Ombudsman:

In addition to the data required for the LTC Ombudsman Outcome Measures, AAAs must provide one or more written LTC Ombudsman-specific objective(s) for services provided with Title IIIB and Title VII Ombudsman funds.

Title VIIA Elder Abuse Prevention:

AAAs must provide at least one written objective for services provided with Title VII Elder Abuse Prevention funds.

Administrative

Administrative objectives are not required unless the AAA plans to use Title IIIB program funds for Program Development (PD) or Coordination (C) activities. Refer to the PD and C instructions below:

- AAAs are not required to have PD or C objectives.
- AAAs may use Title IIIB “Other Supportive Services” program funds to develop or expand a program. Use Title IIIB funds for administrative activities enhancing any program in the service system.
- PD objectives describe a new service, expand existing services, or integrate an existing service. Use PD objectives if the AAA does not have sufficient administrative funds to meet all PD needs. PD Objectives may include a variety of action steps to accomplish an activity. Once the new program, service, or site is developed or enhanced, PD funding ceases and ongoing activities are funded in the appropriate program budget.
- AAAs may use C objectives for activities involving the active participation of AAA staff. Such activities may include collaboration with non-OAA funded agencies and organizations to avoid duplication, improve services, resolve service delivery problems, and address the service needs of the eligible service population.

Section 9 Instructions: Area Plan Narrative Goals and Objectives

Administrative *continued*

- AAAs may use Title IIIB “Other Supportive Services” program funds for C activities if the AAA does not have sufficient administrative funds to meet all C needs.

The act of convening or attending a meeting DOES NOT meet C objective criteria. An objective MUST include the intended results or accomplishments of a meeting or series of meetings.
