Subset Selections
Ages 65 and Older
Inpatient (IP) that originated in the Emergency Department or Emergency Department treat and release encounters

For data prior to the fourth quarter of 2015, the ICD-9 E-Codes used:
E880 - E888
For data for the fourth quarter of 2015 and beyond, the External Causes of Morbidity Codes used:
W00-W15, W160-W164, W17-W19 AND it was the initial encounter

Definition
ED Emergency Department Treat and Release
IP Seen in the Emergency Department and then admitted for inpatient care

Small County Roll-ups
CE groups Alpine, Inyo, Mariposa, & Mono counties
NE groups, Modoc, Plumas, & Sierra counties
NW groups Colusa, Del Norte, Glenn, & Trinity counties
“Not a County” includes out of state patients, missing zipcode, and homeless

Office of Statewide Health Planning and Development

Notes
Data for 2015 are reported in 9-month and 3-month timeframes. For the first 9 months (January – September), ICD-9-CM were used for diagnoses and procedures. For the last 3 months (October – December), ICD-10-CM codes were used. There is not a direct crosswalk of ICD-9-CM codes to ICD-10-CM codes, and the data should not be combined. Comparisons across years should be made with caution. The data are reported separately in this table.
