Where can I learn more about the Master Plan for Aging?

- You can visit mpa.aging.ca.gov to view the Master Plan for Aging (MPA), the MPA Local Playbook, and MPA Data Dashboard for Aging.

What would be examples of good approaches to APIs to establish rapport that would be different to other populations?

- I think building rapport takes time as it is based on trust. Developing community spaces where we can celebrate their cultures (with food and activities) is important. Building trust takes time and respect so if we approach AAPI communities with respect and humility, I think we can slowly build rapport.

What are the top three AAPI languages in LA County?

- Chinese, Korean, and Tagalog.

Seems there are a lot of helps there, but when you got problem, we really do not know where to get those help.
