**ADHC/CBAS PARTICIPATION AGREEMENT INSTRUCTIONS**  
CDA 7000i REV 08/2019

The Adult Day Health Care (ADHC) / Community-Based Adult Day Services (CBAS) Participation Agreement (CDA 7000) is a standardized form required for use by all ADHC / CBAS providers to meet state<sup>i</sup> ii and federal<sup>iii</sup> requirements.

Providers are required to:

- Use the CDA 7000 for new and continuing participants beginning March 1, 2017.
- Replace all non-standardized participation agreements in participants' health records with the CDA 7000 on a rolling basis as each participant's Individual Plan of Care (IPC) is developed and reauthorized.
- Have assessment and care planning policies and procedures in place to ensure proper implementation of the CDA 7000.

## OVERVIEW

**The ADHC / CBAS Participation Agreement (CDA 7000) is:**

1. Required for all ADHC / CBAS participants and provides evidence of the following:
  - a. The ADHC / CBAS center representative has reviewed and discussed the information referenced in the CDA 7000 with the participant and/or participant's authorized representative.
  - b. The ADHC / CBAS participant or the participant's authorized representative has given consent for the participant to attend the ADHC / CBAS center and receive services identified in the participant's IPC.
2. Completed/signed by the ADHC / CBAS participant or participant's authorized representative and the ADHC / CBAS center representative (1) after the assessment/reassessment process has been completed, (2) prior to the delivery of ADHC / CBAS services identified on the IPC, and (3) at a minimum every 12 months or more frequently if there is a significant change in the participant's condition requiring a change in the IPC and requested number of attendance days.

Note: Although CBAS providers are required to review and revise the IPC every six months, the CDA 7000 must be reviewed and signed by the participant or authorized

representative at a minimum of every 12 months or more frequently as described above. Therefore, CBAS providers have the option to revise the CDA 7000 every six months to coincide with the IPC review process.

3. A companion document to the IPC.
4. Filed in the participant's health record and a copy given to the participant and/or participant's authorized representative. A copy of the CDA 7000 **does not** need to be sent with the Treatment Authorization Request (TAR) unless requested.

The CDA 7000 shall not be altered. However, providers shall attach an addendum to CDA 7000 with the following information if relevant to the center:

1. California's Health and Safety Code, Section 1584(c)(5) requires a licensed ADHC center to inform the center's participants or their authorized representatives about the center's use of secured perimeter fences or egress control devices. To meet this requirement, the center shall indicate on an attachment to the CDA 7000 the center's use of a secured perimeter fence and/or egress control device for the signed consent of the center's participants or their authorized representatives to such use.
2. If a CBAS center uses security or surveillance cameras inside or outside the center, the center shall indicate the following on an attachment to the CDA 7000 for the signed consent by the participant or authorized representative: (1) the specific device(s) used, (2) the purpose and location of such device(s), and (3) how the center will protect the participant's privacy and confidentiality with the use of such device(s).

An electronic version of the CDA 7000 is available on the [California Department of Aging](#) website. To find this form and instructions, click on "Forms & Instructions," then select "Eligibility and Service Authorization" and "Participation Agreement (01/17)."
