

HEALTH INSURANCE COUNSELING AND ADVOCACY PROGRAM CONTRACT HI-1718 ALLOCATION METHODOLOGY

The purpose of this document is to outline the methodology used to allocate Federal and State funds for the HICAP Contract HI-1718.

Funding for the Health Insurance Counseling and Advocacy Program (HICAP) comes from federal State Health Insurance Program (SHIP) grant funds and State funds which include the State HICAP fund and reimbursement funds from the California Department of Insurance (CDI). The State HICAP Fund and CDI Reimbursements allocations maintain a ratio of 1:2, respectively, as stated in the Welfare and Institutions Code Section 9541.5.

Local assistance funds are allocated to provide HICAP services in all 33 Planning and Service Areas (PSA) in California. Each PSA has a designated Area Agency on Aging (AAA). The funds are allocated to 26 AAAs which provide HICAP services for all 33 PSAs in California; 4 of the 26 AAAs act as managing AAAs for the remaining 7 AAAs who do not provide HICAP services directly for their PSA.

Federal Funds

Local assistance funds from the SHIP grant are allocated as follows:

- \$517,400 is allocated equally among each of the 26 AAA providing HICAP services to maintain a base level of funding.
- 50% of the remaining balance after the \$517,400 allocation is allocated equally to the 26 AAAs providing HICAP services.
- 50% of the remaining balance after the \$517,400 allocation is allocated based on a proportional share of Medicare beneficiaries.
